Dr. Joshua Lederberg,  
Department of Genetics  
Stanford University  
School of Medicine  
P a l o A l t o, California

March 18, 1961

Dear Doctor Lederberg :

Thank you very much for the answer to our letter and for the suggestion concerning Dr. Nossal to whom the invitation has been also extended. Since we would like rather the theoretical aspects of the problems of immunological tolerance to be discussed, I need not tell you that your personal participation would mean an excellent contribution to the program of the conference. I do hope very much indeed that it will be possible for you to include the conference into your plans for this autumn.

Looking forward to the pleasure of seeing you in Czechoslovakia next November, I am

with best regards,

Yours sincerely,

Milan Hašek
